

> Medieval city of Rouen

Located in Normandy, not far from the English Channel and from Paris, Rouen is an attractive and historic city. Joan of Arc was burned there in 1431. A town of art, its Museum of Fine Arts has the largest collection of impressionist paintings after Paris.

Photo de M.L. LENOIR

The « town of hundred bell towers » offers a unique set of civil and religious monuments dating from the Middle Ages to present times. The city has kept its picturesque medieval streets lined with timber framed house.

Aeronautics in Normandy

March 2014

A great opportunity to discover a French Engineering School and to discover France and Normandy

The Program

> 3 excellent reasons to choose this program

- ⇒ a **strategic location**: in Europe, 150 km from Paris, not far from major European cities (London, Brussels, Amsterdam, etc...)
- ⇒ a **high-tech program** taught in English by qualified professors
- ⇒ in the heart of a « **Grande Ecole** », a French Top School of engineering in a multicultural environment

> Participants

10 students from **SUAI** & 1 professor

> Duration

Arrival on 13/03 in Rouen and departure on 27/03.

> Content

↳ 1 technical course, taught in English

Physics for EMC (20hrs), Mr DUBROFF, from Missouri University of Science and Technology

↳ Introduction to French culture, taught in English

- ⇒ French as a foreign language course (8hrs)
- ⇒ "Introduction to France" course (5hrs)

↳ Industrial visits: 2 majors companies in the field of Aeronautics

↳ Excursions: Paris, Mont Saint Michel (2nd most famous place in France, after Paris),

...

Your stay in France

> Accommodation

The participants will be accommodated with ESIGELEC students. A lodging form will have to be completed before December 20th.

> Costs

Tuition fee is free of charge.

× **ESIGELEC will take in charge:**

- transport for visits and excursions organised by ESIGELEC

× **ESIGELEC will not take in charge:**

- flight from Russia to France and from France to Russia
- food
- transport during free time
- visa expenses (if required)

Approx. budget: +/- € 250 for living expenses during the stay in Rouen.

⇒ € 16 for transport

⇒ +/- € 200 for food (a meal at our cafeteria costs € 5, a simple meal in a restaurant costs € 10).

> ESIGELEC Rouen

ESIGELEC is an engineering school created in 1901, i.e. a higher education institution offering long technical studies (2+3 years). It is recognised by the French Government. The school is accredited by the « Commission des Titres d'Ingénieur » to award the French engineering degree or Master's Degree.

ESIGELEC also offers 3 Masters of Science programs taught in English and doctoral studies. Its research institute in Electronic Embedded Systems is nationally and internationally recognised in the automotive, aeronautics, electronics and telecommunications areas.

Over 1.700 students are at ESIGELEC, 40% of them come from abroad.

ESIGELEC has international agreements with 90 universities in 40 countries. Many exchange programs are offered to students, faculty and staff from ESIGELEC and partner universities.
